TRAINING OPERATIONS:

ENGLISH UNDERGRAD, ILLINOIS STATE UNIVERSITY | [REDACTED] | 2015-2019

Mason has been observed performing well in his current training. His scores stand on top marks, and he is amongst the school's Dean's List. His initial training is set to conclude in December of 2019, but he will begin specialist training immediately following his graduation in the field of game design and development.

FIELD OPERATIONS:

MYTHOS - RPG PROJECT | PERSONAL PROJECT | 2016

The first major collaborative game project Mason was recorded working on, including operators Nathan Bennette, and Josh Goodman. This operation was successful and utilized for multiple campaigns for the next two years.

DOCUMENTATION WEB OPERATIONS | ISU CAS-IT | 2018

After showing proficiency within web coding, Mason's completed the task of creating a referential training website used to train new agents within his unit at CAS-IT. This site is still in use today.

THE TENEBRIS VOYAGER - GAME PROJECT | GEN GAMES | 2019

This eight-month operation is nearing its completion, Mason, along with 32 additional recruited agents, are putting together a major project set to release in January of 2019. The development of this project has become public and received accolade amongst the university that it's developing in.

NOTES:

- [1] Received Accolades in the fields of Leadership Initiative focussing on effective and ambitious use of time while enlisted in his training program within [REDACTED]
- [2] Has been noted for skills in writing, producing, and developing amongst teams, recommended for group operations.
